

## Finances: Loss of incomes

Parishes will already be affected by the loss of hall incomes, cash collections and other fund raising.

- On the national level there is already work being done by the Archbishops, Church Commissioners and others about what support might be made available to help parishes and diocese through the significant financial strain the crisis brings.
- More locally, please monitor your situation and seek to encourage people in the practice of prayerful generosity as much as possible. The Church of England Birmingham Finance team is assessing our situation carefully, and will be circulating some resources to parish treasurers.
- Please raise particular concerns with the finance team or relevant Archdeacon
